

Hello my name is Danny van Mol and I would like to introduce myself. I was born on May 8th, 1972 in Eindhoven, The Netherlands. I came to the United States in September of 2001. Since November of 2001 I have lived in Madison after living for 3 months in Connecticut. I am married to Pam and we have a 9 month old son named Arien and a dog, called Skyla (she is a Vizsla).

I started playing soccer when I was 5 and have played in the Netherlands at a variety of levels. I played Semi-pro for a couple of years for FC Eindhoven and have spent many years at different amateur levels. In the United States I have played at local men's teams and one year for the Princeton 56ers, who are playing in the NPSL League. At the age of 18, I got my Dutch KNVB license and started coaching youth teams. During my coaching period in the Netherlands, I was involved with the KNVB as a scout and coach for a state level team (you can compare this with an ODP team here in the states). I also did summer camps that were organized by the KNVB.

After arriving in the United States, I have coached at all age-levels and have coached many camps. I started in Connecticut with a U13 and U14 girl's team and worked with boys and girls U10 teams. In Wisconsin I coached for the Middleton Soccer Club, Princeton Soccer Club and am currently coaching for the Madison 56ers. I also have been working with the ODP program (the girl's side) and have worked for 3 years with the Men's Princeton 56ers team playing in the NPSL league as an assistant coach. In my 6 years living in Madison I have completed additional coaching licenses and have currently a USSF B license.

I am look forward to helping the Magic Soccer Club and especially assisting all the coaches that are connected with this wonderful club. Feel free to email me with any questions. I am looking forward to helping each of you having a great experience as a soccer coach.
