

Weather Protocol for Magic Teams

When lightning and thunder are present during practice, it will be cancelled and possibly rescheduled in full (date/time by team decision; check with Club Field Coordinator for open field) if practice has been going to less than 30 minutes. A rescheduled practice depends on how busy the team's schedule is and the need for practice that week.

If fields are open and severe weather is on its way, practice will be cancelled at the team level. If rain is predicted but not severe storms, practice should still take place.

When lightning and thunder are present during games or tournaments, the referee will stop play for 30 minutes and all team members and spectators should clear the field. After the initial 30 minutes have passed, the referee will decide how to proceed. If less than half the regular season game has been played before weather forces a cancellation, follow the Game Rescheduling protocol listed in your Manager's Duties packet.
